

## **ERRATUM**

Allen LV Jr. Lansoprazole 3-mg/mL oral suspension. *IJPC* 2010; 14(3): 246.

Replace the ingredient information and the information under the method of preparation with the following:

Lansoprazole		300 mg
Sodium bicarbonate 8.4% solution		50 mL
Sodium hydroxide 1 N solution		6.8 mL
Ora-Plus:Ora-Sweet 1:1	qs	100 mL

## **METHOD OF PREPARATION**

1. Calculate the required quantity of each ingredient for the total amount to be prepared.
2. Weigh and/or measure each ingredient accurately.
3. Pulverize the contents of the required number of lansoprazole capsules.
4. Add the sodium bicarbonate 8.4% solution and mix well.
5. Add 45 mL of a 1:1 Ora-Plus:Ora-Sweet mixture and mix well.
6. Add the 6.8 mL of sodium hydroxide 1 N solution and mix well.
7. Add sufficient 1:1 Ora-Plus:Ora-Sweet to volume and mix well.
8. Package and label.
